

This letter is in reference to K-Love radio at 88.77 which is on 24 hours a day and is there as a ministry both in music and when a person needs someone to listen to them and pray. This is the only station that I listen to and it is very much needed in our community. Our community would be at a great loss if K-Love were to be displaced by an LPFM broadcaster. There really aren't words to describe what it would be like without them. They are someone who cares for the people and offer much support.
